

KAVIYAN S

Aspiring Data Analyst | Python • SQL • Power BI • Excel

Coimbatore, India | skaviyan004@gmail.com | +91 8754321530 | LinkedIn: [kaviyan-s](#) | GitHub: [kaviyan-004](#)

EXECUTIVE SUMMARY

Aspiring Data Analyst with hands-on internship experience applying Python, SQL, Power BI, Excel, Pandas, and NumPy to real-world data. Skilled in data cleaning, data analysis, data visualization, and dashboard development, with a track record of translating raw datasets into clear business reporting and actionable insights. Smart India Hackathon (SIH) 2025 National Winner, recognized for strong analytical thinking under pressure. Seeking a Data Analytics Internship to apply these skills toward driving evidence-based business decisions.

EDUCATION

Sri Ramakrishna College of Arts & Science

2024 – 2027 (Expected)

Bachelor of Computer Science with Data Analytics | CGPA: 8.00

Dr. P.G.V Matriculation Higher Secondary School

2023 – 2024

Higher Secondary (12th Grade) | Percentage: 80%

EXPERIENCE

IT Intern – Technical Support

Jun 2025 – Aug 2025

Divine Infotech, Coimbatore

- Performed data cleaning, exploratory analysis, and visualization using Python and Excel to generate actionable business insights for the team.
- Built and maintained dashboards and summary reports, supporting stakeholder reporting and business decision-making.
- Integrated REST APIs and Firebase for backend functionality, enabling real-time data handling and updates.
- Supported web application development and maintenance using HTML, CSS, JavaScript, and React.js as part of IT technical support duties.
- Collaborated with the development team in an Agile environment, using Git/GitHub for version control and contributing to on-time deliverables.

TECHNICAL SKILLS

Data Analytics: SQL, Pandas, NumPy

Data Visualization: Power BI, Excel

Programming Languages: Python, C++

Databases: MongoDB, Firebase

Web Technologies: React.js, Node.js, HTML5, CSS3

Developer Tools: Git, GitHub, VS Code, Agile, REST API Integration

PROJECTS

Airline Punctuality Analysis

Apr 2025 – May 2025

- Conducted exploratory data analysis (EDA) on large-scale airline datasets to identify key causes of flight delays and trends across major routes.
- Developed interactive Power BI dashboards and Python visualizations to deliver data-driven business insights for operational improvements.

Tools: Python, SQL, Power BI, Pandas, NumPy

Raseed AI Receipts

Jun 2025 – Jul 2025

- Engineered an AI-powered receipt management tool that automatically extracts and categorizes information from uploaded receipts using the OpenAI API.

- Enabled expense tracking and spending-trend visualization through structured, AI-powered data extraction and reporting.

Tools: React.js, Express.js, MongoDB, OpenAI API, Vercel

Leviathone EDNA Analyzer

Sep 2025 – Oct 2025

- Designed a bioinformatics web application using machine learning to analyze and visualize DNA sequences for genetic insights.
- Applied AI models to detect sequence patterns, presenting findings through dynamic, interactive data visualizations.

Tools: Next.js, Python, Flask API, TensorFlow, Firebase

Data Privacy & Analysis Platform

May 2025 – Jun 2025

- Built an AI-powered analytics platform that evaluates user data for privacy risks and assigns risk scores based on sensitivity levels.
- Implemented data anonymization, AI chat support, and secure multi-format data export (CSV, JSON, XLS) with access-code protection.

Tools: React.js, Node.js, Python, AI Model API, Firebase

ACHIEVEMENTS

- Smart India Hackathon (SIH) 2025 – National Winner among competing teams across India.
- Tech Hackathon 2024 (Intra-Department) – Runner-Up.
- Hack Nexus Hackathon Organizer – Led an inter-college hackathon with 20+ participating teams.

CERTIFICATIONS

- Artificial Intelligence – Infosys Springboard
- Deep Learning – Infosys Springboard
- Python Programming – Spoken Tutorial (IIT Bombay)
- SQL Programming – Microsoft
- Cloud Services – Microsoft
- Paper Presentation – AICTE
